Our Job

at Pedernales Electric is to provide dependable electric power to all who live and work in our corner of Texas.

It's our job to help broaden our community's base of social and economic opportunity.

It's our job, as one of nearly 1,000 rural electric systems across the nation — making up a small but vigorous part of the country's total electric industry — to work toward solving mounting nationwide energy problems.

...and Our Promise

We'll go on planning ahead carefully . . . carrying out those plans . . . doing our multi-level job. And, as the future rolls in with extra problems, we'll put forth the extra effort it takes to meet our consumers' — and our country's needs.

It's not only our job — but our promise.
